:: MESSAGE ::

I am pleased to learn about the Global Sustainability Summit (GSS) 2026 and its Virtual Launch organized by the Indian Institute of Sustainable Development (IISD), New Delhi, in collaboration with Dr. Homi Bhabha State University, Mumbai, and supported by D-Link (India) Ltd. as the Industry Partner, on the occasion of World Environment Day.

I commend the efforts of IISD and all partner organizations in promoting sustainable development, environmental stewardship, climate resilience, and responsible governance through this significant national initiative. The Summit's theme, #NowForClimate, is both timely and relevant, reflecting India's commitment to environmental conservation, sustainable growth, and the vision of a cleaner, greener, and more resilient future.

Higher education institutions have a crucial role in fostering awareness, innovation, research, and capacity-building to address emerging environmental challenges. Initiatives such as GSS 2026 provide an excellent platform for policymakers, academicians, industry leaders, researchers, and young minds to exchange ideas and collaborate on sustainable solutions for society.

I convey my heartfelt best wishes to the organizers, distinguished speakers, participants, and all stakeholders associated with the Global Sustainability Summit 2026. I am confident that the deliberations and outcomes of the Summit will make a meaningful contribution toward advancing sustainability, environmental awareness, and inclusive development for the benefit of present and future generations.

C. B. Patil
