PANKAJA GOPINATH MUNDE

सत्यमेव जयते

MINISTER OF
ENVIRONMENT & CLIMATE CHANGE,
ANIMAL HUSBANDRY,
Government Of Maharashtra
Mantralaya, Mumbai - 400 032.

MESSAGE

I am pleased to learn about the Global Sustainability Summit (GSS) 2026 and its virtual launch organized by the India Institute of Sustainable Development (IISD), New Delhi, in collaboration with Dr. Homi Bhabha State University, Mumbai, with D-Link (India) Ltd., Mumbai, as the Industry Partner, on the occasion of World Environment Day.

I commend the efforts of IISD and its partners in advancing the cause of sustainable development through this significant national initiative. The Summit's focus on environmental stewardship, climate resilience, and responsible governance reflects the urgent priorities of our time and reinforces our collective responsibility towards building a sustainable future.

The theme of the Summit, #NowForClimate, is both timely and relevant, aligning closely with India's commitment to environmental conservation, sustainable growth, and the vision of a cleaner, greener, and climate-resilient future. Such platforms play a vital role in fostering dialogue, collaboration, and innovative solutions to address the challenges posed by climate change and environmental degradation.

Maharashtra is also preparing to host the Nashik-Trimbakeshwar Mahakumbh in 2027, one of the worlds largest spiritual gatherings. This sacred event will provide a unique opportunity to showcase to the global community how Maharashtra upholds the values of environmental responsibility and sustainable living. The Mahakumbh will convey the message of " One Earth, One Life, One Future," reflecting our commitment to harmony between humanity, nature, and sustainable development.

I extend my heartfelt best wishes to the organizers, distinguished speakers, participants, industry leaders, academicians, policymakers, and all stakeholders associated with the Global Sustainability Summit 2026. I am confident that the deliberations and exchange of ideas during the Summit will contribute meaningfully to advancing sustainability, strengthening environmental awareness, and promoting responsible development for the benefit of society and future generations.
