MESSAGE

From the Desk of Bridge And Roof Co.(I) Ltd On the Occasion of the Virtual Launch: Global Sustainability Summit (GSS) 2026

It gives me immense pleasure to extend my warmest greetings and heartfelt congratulations to the Indian Institute of Sustainable Development (IISD), New Delhi, on the historic Virtual Launch of the Global Sustainability Summit (GSS) 2026. Organized to celebrate India's global leadership in Sustainability and Decarbonisation, this landmark initiative is beautifully complemented by the collaboration of Dr. Homi Bhabha State University, Mumbai, and the robust support of D-Link (India) Ltd as an industry partner.

This flagship event brings collective ecological action to the very heart of the nation's capital, creating a vital epic enter for transformative change. Driven by the defining theme, **#NowForClimate**, the summit serves as a powerful call to action, urging all sectors to collaborate on engineering practical, scalable solutions for a greener tomorrow. Their collective insights will undoubtedly provide a visionary roadmap for India's leadership in global decarbonization.

At **Bridge And Roof Co.(I) Ltd,** we believe that sustainable development is not merely an environmental goal, but a profound economic and social responsibility. As an organization committed to excellence and progressive advancement, we are executing Flue Gas desuphurisation projects in Maharashtra and Chattisgarh for cleaner air from Power plant flue gas. Also, we are executing Solar Power projects of about Rs 6000 Crores in Gujarat, Rajasthan and other parts of Country. Our infrastructure building projects are rated Green Building with many initiatives to reduce carbon foot prints. We firmly align ourselves with this summit's vision of accelerating the global transition toward net-zero emissions through innovation, technological integration, and responsible stewardship.

On behalf of B AND R, I convey my best wishes to the organizers, eminent guest speakers, and delegates. I am confident that the strategic deliberations at Vigyan Bhawan will inspire meaningful action and leave an enduring footprint for generations to follow.

(Ravi Kumar)
Director (Project Management)
Bridge And Roof Company (India) Ltd.
